

#1230SAE

ACRYLIC PERFORMANCE GRADE BOPP SUPER CLEAR LAMINATION TAPE

DESCRIPTION

A super clear rugged biaxially-oriented polypropylene (BOPP) film coated with a pressure-sensitive acrylic solvent adhesive that is used specially for lamination for printing materials. It has excellent ink adhesion with flexographic print and exceptional dimensional stability. Best suited for reliable lamination performance of labels where resistance to weathering, aging, UV light and yellowing is important. Provides excellent clarity, high shear strength to prevent flagging and controlled unwind to facilitate dispensing on automatic laminating machines.

PRODUCT APPLICATIONS

Typically used for the lamination of flexographic printing and labelling materials for absolute transparency along with high colour retention. Our standard lengths per roll are 200m, 400m and 600m per roll. Ideally used together with small labelling printing machines with short to medium print runs.

QRAMO MATERIALS TECHNICAL DATA SHEET

NOMINAL VALUES

The following data are based on nominal values based on PSTC, ASTM and other industry standard tests. The data should not be considered as specifications.

Backing (Blown Film)	BOPP Film
Adhesive	Acrylic Solvent
Total Thickness	0.030mm
180 °Peel Adhesion (SUS) ASTM D-3330	3.10 (N/25mm)
Tensile Strength (at break) ASTM D-3759	100.0 (N/25mm)
Elongation (at break) ASTM D-3759	145%
Temperature Range (Operating)	-10°C to 60°C (14°F to +140°F)
Colour	Clear
