ACRYLIC PREMIUM GRADE BOPP MATT LAMINATION TAPE

DESCRIPTION

A rugged biaxially-oriented polypropylene (BOPP) matt film coated with a pressure-sensitive and environmentally friendly emulsion acrylic adhesive that is used specially for lamination for printing materials. It has excellent ink adhesion with flexographic print and exceptional dimensional stability. Best suited for reliable lamination performance where resistance to weathering, aging, UV light and yellowing is important. Provides excellent clarity, high shear strength to prevent flagging and controlled unwind to facilitate dispensing on automatic laminating machines.

PRODUCT APPLICATIONS

Typically used for the lamination of flexographic printing materials for absolute transparency along with high colour retention. Our special long lengths of up to 9,000m per roll increases production efficiency and reduce costs.
